

Notification of intention to use images and
video of students for

DIGITAL MEDIA & THIRD PARTY EDUCATIONAL SOFTWARE

The use of digital/video images plays an important part in learning activities. Students and members of staff may use digital cameras/iPads etc. to record evidence of activities in lessons and out of school. These images may then be used in presentations in subsequent lessons.

Staff may not use their own mobile phone/cameras to record students, only school equipment is to be used.

Images and video footage of school students, activities and events can also be used in the promotion of the school to the wider community.

Images may also be used to celebrate success through their publication in newsletters, on the school website, social media and occasionally in the public media.

The school must comply with the Data Protection Act and request parents/carers permission before taking images of members of the school.

CONSENT

As the parent/carer of the student, I agree to the school taking and using digital/video images of my child. I understand that the images will only be used to support learning activities or in publicity that reasonably celebrates success and promotes the work of the school.

I agree that if I take digital or video images at, or of, school events which include images of children, other than my own, I will abide by these guidelines in my use of these images. Please also be aware that no student is allowed to post images or video footage of either school staff, students or the school on any internet site without prior consent from the School Development Officer and/or from the persons involved.
