# WELCOME

## To the Sale Scholars Programme

Dear parents, guardians and students,

I am delighted to relaunch our Sale Scholars Programme, aimed at nurturing academic excellence and inspiring students to achieve their highest aspirations. While our broad and rigorous curriculum challenges all students, the Scholars Programme adds an extra layer of enrichment through experiences beyond the classroom.

This programme offers a range of academic and creative activities designed to help students unlock their potential and prepare for future educational pathways. Key elements include subject-specific masterclasses, collaborations with other schools, research projects, leadership roles, and participation in academic competitions. These experiences provide expert knowledge and fresh perspectives, encouraging students to broaden their understanding and strive for even greater success.

Our goal is for scholars to embrace their talents and ambitions with passion, determination, and resilience. By investing in their development through the Sale Scholars Programme, we aim to equip them with the skills and aspirations needed to access a wide range of opportunities throughout their educational journey.

Lucy Laryea  
Assistant Headteacher

# ABOUT THE SCHOLARS Programme

The Sale Scholars Programme is designed for our aspirational students who are committed to excellence and possess a deep thirst for knowledge. Starting in Year 7, the programme aims to prepare, stretch, and challenge students throughout their time at Sale High School.

While the Sale High School curriculum is broad and balanced to engage and challenge students of all abilities, the Sale Scholars Programme goes a step further by offering targeted enrichment activities. These activities are crafted to enhance the curriculum through a variety of opportunities beyond the classroom, ensuring that our most able and driven students are continuously encouraged to excel

# WHAT ARE WE LOOKING FOR

## From our Sale Scholars?

- ✓ **Desire for Academic Excellence:** Demonstrates strong academic performance and a passion for learning.
- ✓ **Commitment to the Programme:** Willingness to participate in enrichment activities, some of which may occur after school or during lunchtimes.
- ✓ **Engagement in Extracurricular Activities:** Actively involved in extracurricular activities that demonstrate ambition and a desire to grow.
- ✓ **Motivation to Learn:** Eagerness to embrace new learning opportunities and challenge oneself academically.
- ✓ **Leadership Potential:** Interest in developing leadership skills through the programme.
- ✓ **School Values:** Embodies key school values such as resilience, achievement, and aspiration.
- ✓ **Dedication to Independent Projects:** Prepared to undertake independent research projects and demonstrate self-discipline.
- ✓ **Willingness to Compete:** Openness to participating in academic competitions and representing the school in external events.
- ✓ **Aspiration for Higher Education:** Interest in Aim Higher events and participation in activities that encourage future educational opportunities.
- ✓ **Parental/Guardian Support:** Commitment from parents/guardians to support the student's participation in the programme

# AIMS

## Of the Scholarship

- ① Nurture academic excellence in the most able and aspirational students.
- ① Challenge and stretch students through tailored enrichment opportunities.
- ① Provide subject-specific masterclasses to deepen understanding in key areas.
- ① Develop leadership qualities through targeted training and activities.
- ① Inspire ambitions for higher education through Aim Higher events.
- ① Offer opportunities for academic competitions to showcase and enhance students' talents.
- ① Support personal growth by encouraging resilience, integrity, and ambition.
- ① Provide a platform for personal and academic development, preparing students for future academic pathways.
- ① To celebrate, encourage, and develop a profound love of learning
